

# Tengizchevroil Future Growth Project

## LETTER OF REFERENCE

Presented to

### Resource Management Service, LLP

*During the period of August 2018 to December 2019, Resource Management Service, LLP worked on the Tengizchevroil FGP 3GP Pre-Assembled Pipe Rack (PAR) Project in Tengiz, Kazakhstan for the prime contractor, ErSai. They performed grouting of 786 bearing plates for the 44 PAR's plus grouting of spherical bearings for two GE Frame 9 Gas Turbine Generators and two 110kV Substations. They also performed grout finishing, grout repair, grout coating and winterization activities. They took personal ownership over all activities and completed the work per schedule with a perfect safety record. They managed their personnel professionally and communicated effectively to complete the Project expeditiously in a safe and efficient manner.*

Tim V. Smith
